Kiosk Solutions for Video Remote Interpreting

LanguageLine Solutions® and Advanced Kiosks® have teamed up to bring you the latest in Interpretation Accessibility

What are the Benefits of Video Remote Interpreting?

In today's multi-lingual world, business and service providers often struggle to support their clients in a variety of languages. Even beyond audio communication, being able to visually interact with a live, professional interpreter can enhance the communication process. LanguageLine Solutions has partnered with Advanced Kiosks to provide an intuitive touch screen kiosk solution, providing on-demand audio and video interpretation in hundreds of languages at the touch of a button.

240+ LANGUAGES AVAILABLE

LanguageLine searches the globe for the finest professional interpreters. A self-service kiosk enables personal interaction with a live interpreter in hundreds of languages.

11,000 VIDEO INTERPRETERS ON-DEMAND

This self-service kiosk solution connects you to the interpreter in a matter of seconds, enriching and simplifying the communication experience.

SECURE SOFTWARE AND HARDWARE

LanguageLine orients all of its solutions, processes, and hiring practices around keeping sensitive information safe, while Advanced Kiosks's tamperproof kiosks and software are built for security.

WEEKLY REPORTS AND NOTIFICATIONS

Alerts, statistics, and usage trends are generated from each kiosk and then formatted into a weekly report to help determine effectiveness and track ROI.

24/7 TECHNICAL SUPPORT

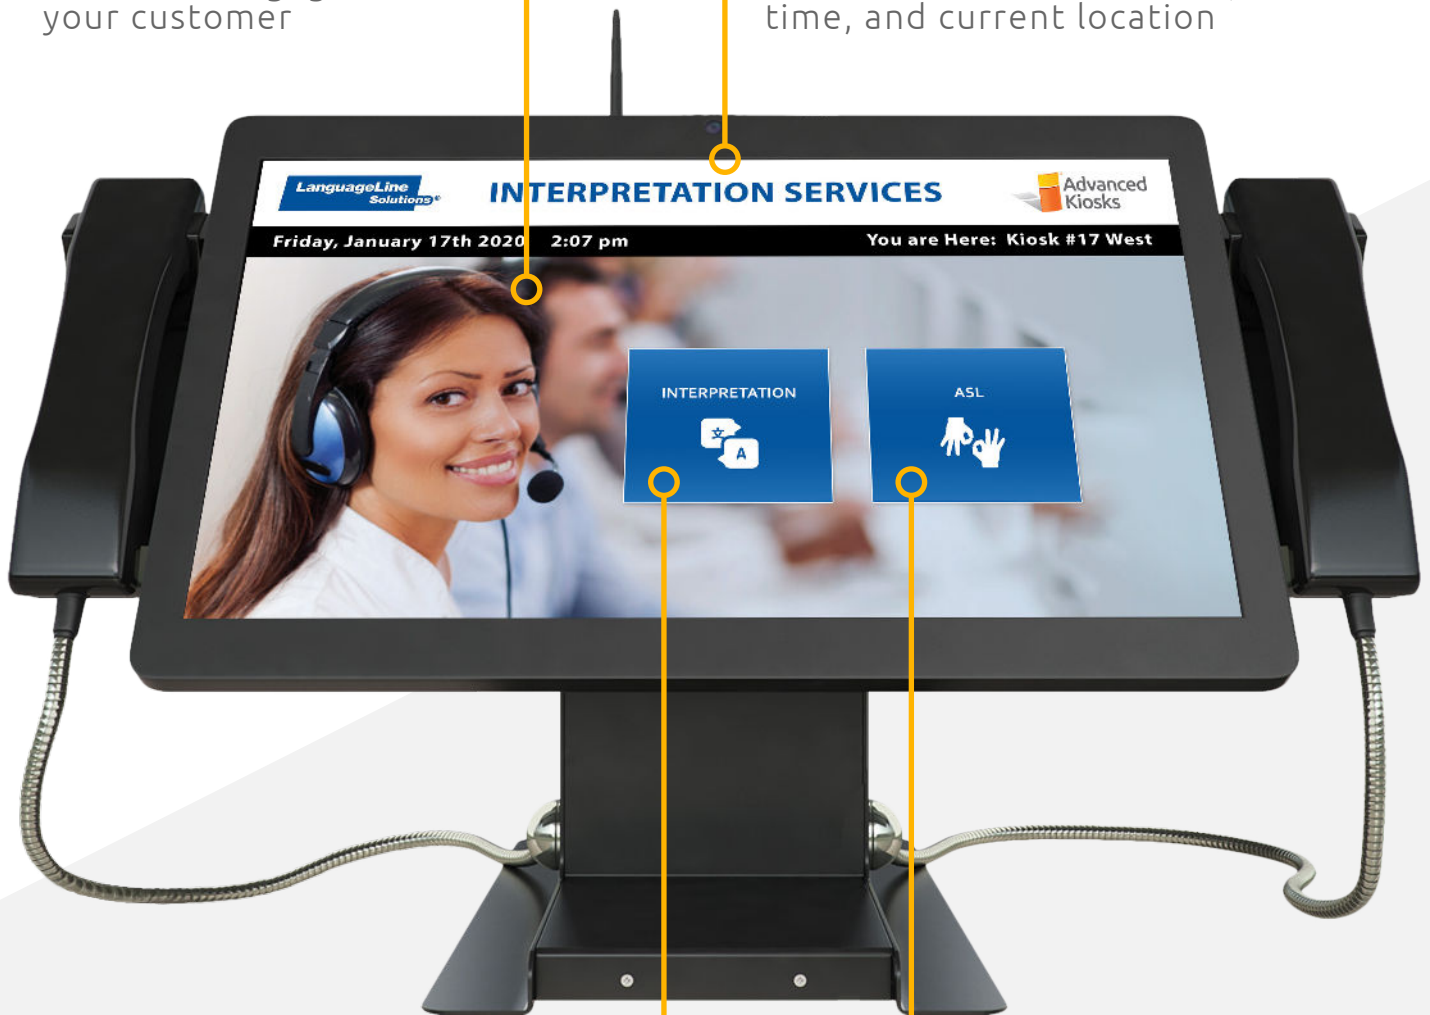

Get problems solved quickly. LanguageLine and Advanced Kiosks both provide 24/7 support for all aspects of your kiosk solution.

How Does the Kiosk Interface Work?

Customize the computer kiosk interface to match your brand and messaging. This self-service kiosk for interpretation is streamlined and simple, making it easy to navigate for a non-English speaker.

During setup, choose an **IMAGE** to engage with your customer

Set up the **HEADER** to provide basic information like date, time, and current location

INTERPRETATION launches the phone and video interpretation options with the touch of a button

ASL takes your patient directly to the American Sign Language (ASL) video interpretation feature

What is Included with the Kiosk Hardware?

Make over 240 languages available to you and your customers, all at the touch of a button. The system features a compact computer kiosk with a multi-touch monitor and two mounted handsets. Its 16 gauge steel enclosure and commercial-grade touch screen make it an excellent choice for handling high usage environments.

3 YEAR WARRANTY

- Tamperproof Hardware
- Easy WiFi Connect
