# Office Extension 2.0

A Self-Service Extension of Your Office

Office Extension 2.0 is a favorite of Cities, Counties, Courts and Human Resources for its ability to be configured for many self-service functions, and for its ability to communicate and report back to you.

Update the kiosk interface right from your desktop!

Extend the reach of your office's capabilities:

- Print forms, documents or pay stubs
- Send e-mails to staff
- Pay bills (3rd-party application required)
- Easily create scan routines that are sent to staff
- Fill out forms
- Use VOIP for help when needed
- Secure access to websites or web-based applications
- Print receipts
- Search databases & more!

Price: $13,115 each*

GSA Contract Holder

*Price includes hardware, yearly software, yearly support. Onboarding & shipping not included.

SOFTWARE

Customize the touch screen interface. Most everything on the interface below is configurable.

Add your organization's logo, branding, colors, and background

Configure buttons to securely direct users to any website, print or scan documents, pay bills, fill out forms and more

Add informational images to slide show as desired

Translate interface to multiple languages (see page 3)

VISUAL GUIDE FOR KIOSK MANAGEMENT

to learn how easy it is to update your kiosk!

INSTRUCTIONAL POPUP WINDOW

The Instructional Popup Window feature allows you to give kiosk users more instructions so that they can interact with the kiosk with more success. Give specific information on how to complete tasks, what the user will need to be successful, and set follow-up expectations to make processes easier for all.

Some practical examples of this feature would be a Housing Authority listing required documents in order to file an application for housing (shown above), or when to expect a decision from the Housing committee. There are countless examples of how providing more information can be benefical to all parties involved.

INTERFACE TRANSLATION

The Interface Translation feature instantly transforms the configurable interface text at the tap of a button. The user can choose from a predetermined list of languages in an intuitive & easy-to-navigate menu.

HARDWARE

Hand-built with high quality materials in the USA

3 YEAR WARRANTY

- Tamperproof Hardware
