### MERCHANT MAX

32" PORTRAIT  
INDOOR

The thin, sleek profile and large touchscreen monitor invite users to interact.

*\*Full system:*

**\$14,990.00**

### COUNTERTOP TABLET

13.2" PORTRAIT / LANDSCAPE  
INDOOR

Lightweight and portable, the Countertop Tablet is perfect for tight spaces and tight budgets.

*\*Full system:*

**\$8,655.00**

*\*Kiosk pricing includes multi-touch system with speakers, video camera, computer & all software setup. All product offerings include 1 year of Zamok Kiosk Software subscription (billed annually) with onboarding. Shipping & custom work not included.*

## CONVENIENCE

Features designed for the convenience of visitors entering the building.

- ✓ **CALL A PERSON / DEPARTMENT**  
Calling or texting a person is easy and is done over VOIP - no phone line needed! A follow-up text notification message can be sent out automatically. A dial pad is available on screen for voice mail options.
- ✓ **USER EXPERIENCE**  
Convenience buttons such as WiFi, Deliveries, Bulletin Board, Event Calendar, Latest News and Local Services and more are all suggested configuration options to optimize user experience.
- ✓ **WAYFINDING**  
Providing maps or directions to visitors so they can find their way is easy. Plug in static JPG maps or links to map programs such as Google Maps for added interactivity.
- ✓ **DIRECTORIES**  
Search by name, department or business name. Easily add new names or businesses with an easy-to-use admin interface. Add pictures of people or company logos as desired.
- ✓ **TRANSLATION**  
Customize your own translation menu to include all the languages your users need most. The kiosk interface is translated with the touch of a button. Hundreds of languages are supported.
- ✓ **ACCESSIBILITY**  
Fully customizable, the Accessibility menu provides support for people that need help. The menu can include screen and text enlargement, color adjustments, contrast changes and more.

## SECURITY

Safety and security-based features for accessing the building.

- ✓ **ACCESS CONTROL**  
Implement a visitor check-in policy with a virtual guestbook. Keep automated real-time records of all who are inside the building and all who have visited. Interface software with locking hardware system for full access control.
- ✓ **EMERGENCY**  
Should the need arise, emergency services can be quickly contacted with the tap of a button. Instantly place a VOIP call to your building's security office or direct to 911, depending on configuration.
- ✓ **BADGE / ID PRINTING**  
For higher-level security measures, integrate a quick and easy ID badge system into your visitor management workflow. Leveraging webcam and thermal printing technologies, this solution is quick, easy and intuitive for users.
